- Administration & Management

SUMMARY OF COMPETENCIES

Dunchard Stanley started working in the environmental consultancy sector 2 years ago, when she joined Earthtime in 2010. Dunchard is now in charge of coordinating all logistical requirements of all the ESIA/ESMPs projects developed by Earthtime since 2010. Dunchard's main role at Earthtime is preparation, and implementation of logistics plans to support all relevant operations within all projects, provision of logistics support to other staff by arranging land and air-travel including arrangements for staff accommodation, maintenance of equipment inventory, and management of project transport requirements. She has supported ESIA/ ESMPs for the mining sector, the offshore oil exploration projects, transmission lines, mineral testing laboratories and woodchip biomass production.

Dunchard had a leading role in organizing stakeholders consultations, public participation activities, and following up with EPAL on permitting requirements to secure all environmental requirements and permits for Earthtime's clients. For instance, during an ESIA work for a oil and gas exploration projects, Dunchard arranged stakeholders consultations with several county officials, and public participation meetings with residents of several communities in four different counties in Liberia, namely Sinoe, Grand Bassa, Grand Cape Mount, and Montserrado Counties.

Dunchard has excellent interpersonal and communication skills and ability to work in a multi-stakeholder environment, and plays a major role in communicating with the EPAL.

RECENT RELEVANT PROJECT EXPERIENCE INCLUDES:

- Liberia –Team Member of ESIS/ESMP for water supply project for three major cities in Liberia
- Liberia –Team Member of ESMPs for 3 mineral exploration projects
- Liberia – Team Member of an ESMP for a mineral testing laboratory
- Liberia – Team Member of an ESIA for two 66 kVA transmission lines between Mt. Coffee and Monrovia
- Liberia – Team Member of an ESIA for 66 kVA transmission line between Kakata and Paynesville
- Liberia – Team Member of ESIA for 3 offshore oil and gas exploration projects
